

DUFOUR 470

Unveiled in tandem with the Dufour 61, the Dufour 470 is no less impressive a boat, despite its more diminutive LOA. As has been the case with a number of other Dufour models of late, the boat is available in three different versions: an "Easy" version with a simplified deck plan that will likely prove most popular in the charter market; an "Ocean" version with upgraded sail controls for cruisers looking to get the most they can out of their jib and main; and a "Performance" version for those interested in racing. Created by Felci Yacht Design, all three versions feature an expansive cockpit, complete with outdoor galley, twin helms and plenty of room for relaxing or grinding winches, depending on your preference. The hull is infused with a PVC foam core and a vinylester barrier coat to ward off the threat of osmosis.
